

RUSH V PRO SCHOOL

ACCESSORIES (INCL.)

NEW

The Rush V Pro School is a simple, affordable and durable ram-air depower trainer. It is an ideal kiteboarding trainer for schools, operating and functioning the same as larger depower kites. The Rush School trainer is responsive, smooth and stable. The 3m size has just enough power to ensure beginners will be ready to progress to the next level. The Rush School works with a sheetable bar system, allowing an easy progression onto a larger depower kite after learning the basics:

- // complete package including de-power control bar and chicken loop
- // flying lines already attached to the kite
- // easy handling - uncomplicated flight characteristics
- // wide useable wind range
